

Description

WS Mask Cleaner S is a new aerosol for the cleaning and maintenance of all types of Welding and Protective screens, providing excellent cleaning, protection and shine.

Features

- Easy to apply.
- Pleasant scent for the user.
- Restores the original shine of the mask.
- Provides a dry, colourless protective film.
- Moisturises components, joints, sliding parts.
- Protects the mask from projections and aggressive agents.
- It does not damage any components.
- Non-toxic to the welder.
- Extends the life of the masks.
- Prevents the components from drying out, maintaining their original properties.

Applications

- Cleaning and maintenance of all types of welding and protective screens.

Instructions for use

- Apply to the entire surface and then wipe with a dry cloth.
- Extremely flammable aerosol, do not spray on naked flames or sparks.
